ABOUT THE EVENT:

Stochast-O-Liga is a premier offline statistical mathematical quiz designed to test your analytical prowess, problem-solving skills, and knowledge of the great stalwarts of mathematics and statistics. Gather your squad and prepare for a multi-stage battle of wits!

REGISTRATION & TEAM RULES:

Team Size: Each team must consist of exactly three members.

Registration Process: Only one member of the team is required to fill out the Google Form to register the entire team.

INSTITUTION RULES:

Team members can belong to three different colleges (cross-college teams are welcome). Multiple teams from a single institution are allowed to participate.

Single Participants: If you wish to participate but do not have a team, you may still register as an individual. On the day of the event, subject to availability, single registrants may be grouped to form a team.

Modifications: If team members need to be changed after registration, this can be done on the day of the event during physical registration. However, the entire team cannot be replaced; at least one originally registered member must be present.

Mandatory: All participants must carry their respective valid college ID cards.

TOURNAMENT STRUCTURE:

The competition is divided into a qualifying preliminary round and a series of main events with strategic elimination points.

- The Prelims
- The Main Events

THE PRELIMS

Every registered team will take a preliminary written test. Only the Top 8 teams with the highest scores will advance to the main events.

THE MAIN EVENTS

The Top 8 teams will navigate through the following stages:

- *Chronicles* (Non-Elimination): All 8 qualifying teams participate in this round to build their initial scores.

- *Stat Cipher* (First Elimination): Teams will flex their problem-solving muscles to decipher algorithms and more. At the end of this round, the 2 teams with the lowest cumulative scores will be eliminated.

- *Blitz*: Feel the heat as you blaze through rapid-fire rounds of statistical trivia.

- *The Endgame*: The final surviving 6 teams will navigate through a statistical maze, predict the answers, and battle to emerge victorious.
